OUR SPECIAL SERVICES

- **Ozone**

Ozone therapy is a great disinfecting solution during dental treatments such as after dental cleanings, deep cleanings, root canals, extractions and other treatments for infections.

- **Perio Protect**

Perio Protect trays are used to treat gum disease and keep gums healthy after a deep cleaning. Hydrogen peroxide technology attacks disease causing bacteria to maintain healthy gums for life.

- **SMART Amalgam removal**

Our team is SMART certified, We remove old amalgam fillings in a safe manner

- **Laser therapy**

We use diode laser therapy to remove harmful bacteria during deep cleanings and root canals.

- **Oral microbiome test**

This test is a useful marker for personalized care. We will assess the landscape of your oral microbiome to offer targeted treatments.

At the Flossery, **your** safety is our priority.

We take extraordinary measures to keep your family and our team **safe**.

These include:

- Comprehensive care to reduce office visits
- Socially distancing and no wait times. We will get you in immediately
- Paperless and contact-less check in
- Medically sterilized equipment
- Full disinfection of rooms between patients including air purification in each room
